

# JCP Srl brochure

JCP srl, Italy, is a specialised Knowledge Transfer and Capacity Building Company providing tailor made consulting and advisory services mainly in horizontal disciplines applied to a large variety of sectors in the frame of International Development Cooperation actions.

With over 25 years of experience and over 50 years of professional track record, JCP can claim above 300 trainings (mainly on Procurement Procedures, Contract Management, Implementation and related follow-up both on operational and financial levels); thus including necessary capacity building to a variety of stakeholders public and private entities (including CSOs & NGOs) in Proposals Writing, Internal Monitoring & Evaluation, Narrative and Financial Reporting accompanying these entities in implementing their contracts.

JCP also can demonstrate the delivery of capacity building within the EC-HQ, EUDs and as well as decentralised Authorities (NAOs, CFCUs, together with other Pillars Assessed Contracting Authorities). The founder of JCP can boosted the training of above 4000 EC (at various levels) official on procurement procedures.

In particular, JCP's provides support and advisory services on horizontal fields and axis in the general context of effective project management, project implementation, evaluation, monitoring including 3rd party monitoring for EU funded as well as other donor funded Aid projects including:

- Youth including Youth inclusion & employment including increase social business;
- Education;
- Culture;
- Social Protection and Inclusion (of disadvantaged and vulnerable groups and related disabilities);
- Higher Education Reforms; Vocational Training Programmes;
- Dialogue and Empowerment of Civil Society and Local Authorities
- Good Governance; Justice and Rule of Law; Human Rights (including gender equality and empowerment);
- Science, Technology, Innovation and R&D and Digital;
- Climate Change, Environmental, Green and Sustainable Energy;
- Sustainable and Natural Resources Management (including environment, biodiversity, forests, water and circular economy) together with Rural and Urban Development;
- Food Safety and Food Security Systems (including sustainable agriculture and nutrition).

With Training & Capacity Building together with Communication & Visibility as cross-cutting mandatory pillars.

Technical assistance services include the design and formulation of projects; conceptualisation of procurement processes including Grant Schemes (with special focus on sub-granting management); drawing up of feasibility studies & project fiches; project implementation, proposal assessment; design and delivery of capacity building initiatives by on-the-job training, training of trainers; contract and financial management following PCM modalities supported by best practices and lessons learnt; evaluation & monitoring using international methods and tools; development of innovative outcomes monitoring modalities (also considering the new application of the theory of change); drafting of procedural manuals and internal systems, thus including communication plans with particular emphasis to "story-telling" and dissemination and exploitation modalities.

JCP srl has been operational in all the five continents: Africa, America, Asia, Europe and Oceania: with over 250 different contracts/assignments. Additionally, JCP srl has been selected to cooperate with various EC DGs, various EU MS International Cooperation Agencies, various EU supported Entities and as well as from other International Donors.

Stemming from long-term experience in advising Beneficiaries on grant funding peculiarities, JCP srl developed a web-based Grants Management and Monitoring Tool named EGREG.

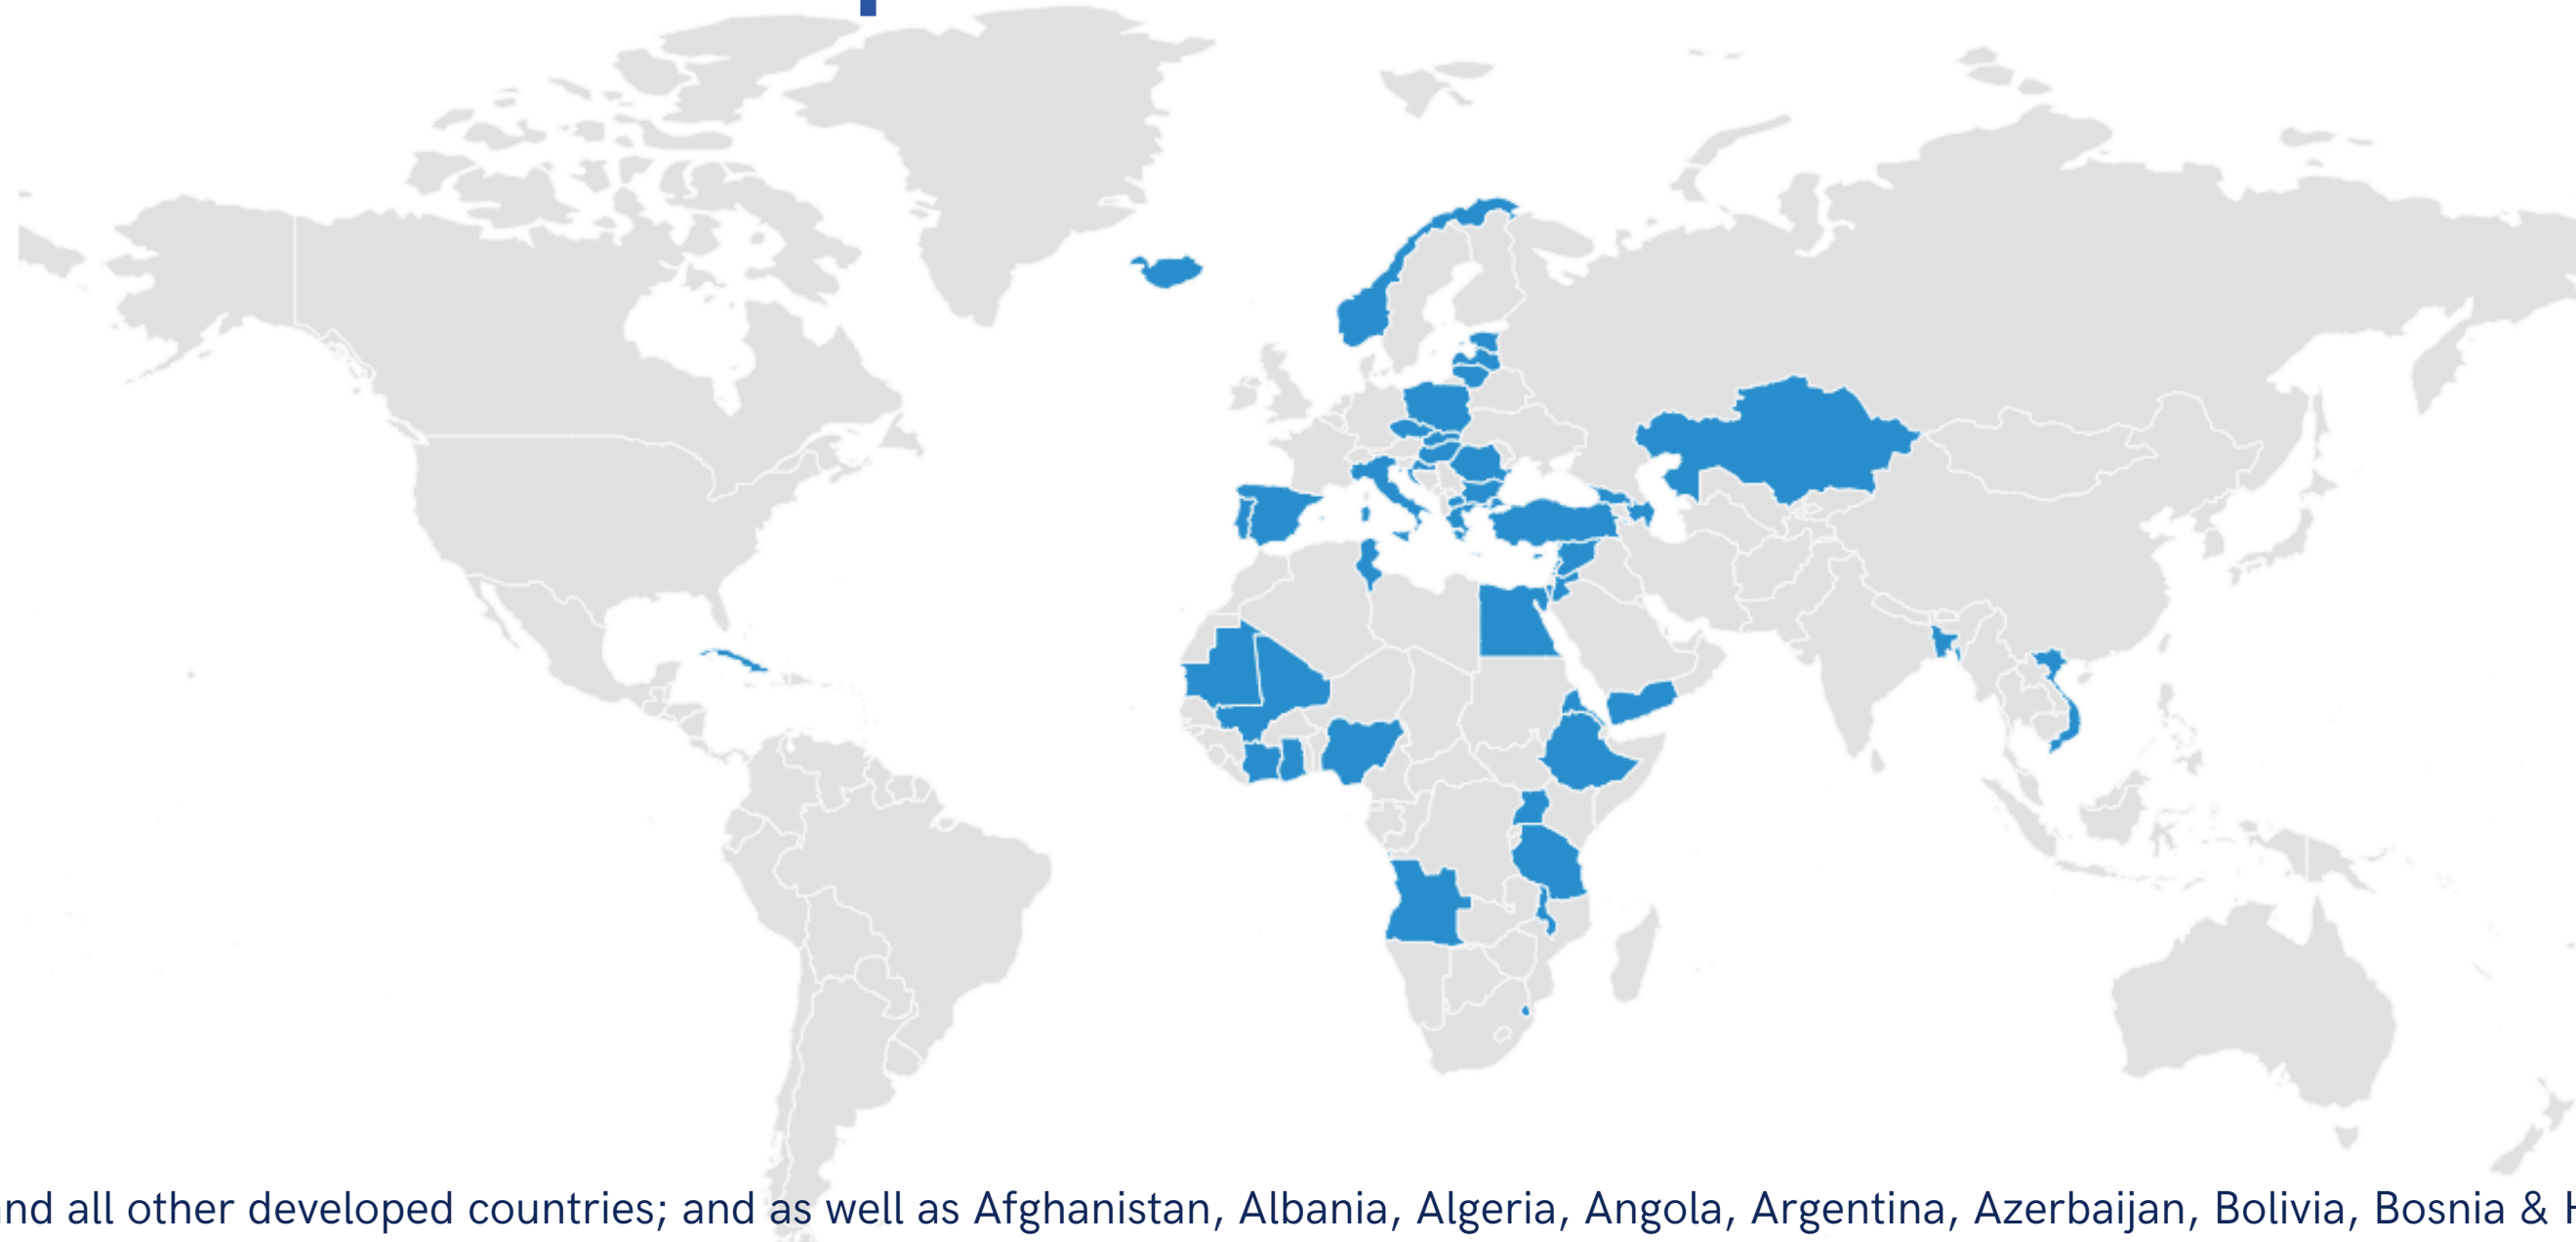

Egreg, an in-house customisable tool that ensures easy and proper management of grants by providing key users - ranging from applicants, beneficiaries, contracting authorities as well as internal and 3rd party monitors, with a complete set of easy-to-use functions towards the successful execution of the needs.

EGREG is the "ready-to go" tool for all decentralised Authorities implementing EU funded programmes allowing for full compliance of article 4.2 (of the EC external aid Contracts General Conditions) and allowing for the actual necessary remote control and information exchanges during project implementation.

EGREG is used in the frame of different Bilateral as well as Transnational Grant Scheme projects implemented for the European Commission delegated modalities with Member States pillar assessed Entities and customised to other International Donors rules like the EEA & Norway Global Fund for Regional Cooperation and the EEA & Norway Global Fund for Youth Employment.
